Profile Summary

Frontend Developer with 6 years of experience specializing in React.js and Next.js, building scalable, high-performance web applications using modern JavaScript (ES6+). Experienced in developing SSR and SSG-based applications using Next.js (App Router), optimizing Core Web Vitals, and implementing efficient state management using Redux and Context API.Strong experience in REST API integration, with basic working knowledge of GraphQL and TypeScript in modern frontend environments. Collaborative team player with experience working closely with designers and backend developers, participating in code reviews, and delivering clean, maintainable, and scalable solutions.

Skills

Frontend

React.js, Next.js (App Router),
JavaScript (ES6+), HTML5, CSS3,
Tailwind CSS, Bootstrap

Backend

Node.js, Express.js, RESTful API
Development, JWT Authentication,
File Uploads & API Integration

Architecture & Optimization

SSR, SSG, Dynamic Routing, Code
Splitting, Caching Strategies, Core
Web Vitals, SEO Optimization

API & Integration

REST APIs, Client-Side State
Management, Form Handling

Tools

Git, GitHub, Postman, npm

Design

Figma, Adobe XD, Photoshop

Professional Experience

2024 – Present

Tradologie.com, Frontend Developer

- Built React.js frontend modules for a B2B marketplace, including an internal ERP and lead management system used daily by the sales team.
- Managed complex application state using Context API and custom hooks, keeping data flow predictable across multiple interconnected modules.
- Integrated REST APIs for real-time data rendering and worked closely with backend developers on data contracts and debugging.
- Improved Core Web Vitals through lazy loading, code splitting, and image optimization — contributing to better SEO performance and lower bounce rates.

2023 – 2024

Wobindia Consultancy Services Pvt. Ltd., Frontend Developer

- Built client-facing web applications and a logistics management platform (HRLogix) using React.js, Next.js, Tailwind CSS, and Bootstrap.
- Developed reusable component libraries and handled REST API integration, form validation, and dynamic routing across multiple projects.
- Optimized rendering performance and reduced unnecessary re-renders using memoization and efficient state structuring.

2022 – 2023

Frequent Research Fieldwork Solutions Pvt. Ltd., Frontend Developer

- Built survey dashboards and multi-step form UIs in React.js with conditional logic, validation, and API-driven data submission.
- Refactored legacy UI components for better performance and mobile responsiveness, improving usability across devices.
- Awarded Employee of the Quarter for consistent delivery and initiative in improving the existing codebase.

2020 – 2022

Credence Digital Marketing, *Web Developer & Designer*

Built and delivered 100+ SEO-optimized websites for clients across industries. Focused on performance, accessibility, and responsive design. Recognized as Star Performer and Employee of the Month.

Selected Projects

ERP & Lead Management System - Tradologie, *React.js · Node.js · Express.js*

Internal ERP and lead tracking tool at Tradologie.com for the B2B sales team to manage prospects, follow-ups, and pipeline stages.

- Developed lead listing, detail views, pipeline tracking, and status update flows in React.js for daily sales team use.
- Built filterable, sortable table components and reusable forms to handle large volumes of lead data efficiently.

HRLogix Portal - Parcel Delivery & Driver Management, *React.js · Next.js · Tailwind CSS · REST APIs*

Logistics platform for an Australia-based client managing parcel deliveries, driver fleets, and vehicle assignments. Near-complete, not launched.

- Built booking management UI for creating deliveries, assigning drivers and vehicles, and tracking parcels through the delivery lifecycle.
- Integrated REST APIs to sync booking and driver data in real time; optimized state and API calls to handle live updates without UI lag.
- Built a completed-booking reporting module to help managers track delivery performance and operational metrics.

Sampledge - Survey & Reward Platform, *React.js · Node.js · Express.js · MongoDB*

Survey marketing platform where vendors publish surveys and users participate across multiple sites to earn reward points.

- Built multi-step survey forms with conditional logic, validation, and smooth step navigation; developed the pre-screening flow to filter participants.
- Integrated APIs for form submission, session handling, and reward tracking; improved performance on large forms using optimized state management.

Education

Bachelor of Computer Applications (BCA) – Ongoing, *Indira Gandhi National Open University (IGNOU)*

Diploma & Advanced Diploma in Web Designing, *Wap Institute*

Awards

Employee of the Quarter, *Frequent Research Fieldwork Solutions Pvt. Ltd.*

Star Performer, *Credence Digital Marketing*

Employee of the Month, *Credence Digital Marketing*

Soft Skills

- Team Lead
- Analytical
- Detail-Oriented
- Communicator
- Multitasker
